8. The revised Fundamental Rules and the subsidiary rules under them apply to all residences for Government servants, including the residences under the control of departments other than Public Works Department, and Heads of departments who have not already taken action should take prompt steps for the revision in accordance with the revised rules of the posts of buildings under their departmental control.

Financial Note 45

45. A Local Government may make rules laying down the principles governing the allotment to officers serving under its administrative control, for use by them as residences, of such buildings owned or leased by it, or such portions thereof, as deemed fit. The Local Government may make available for the purpose. Such rules may lay down different principles for allotment in different localities or in respect of different classes of residences, and may prescribe the circumstances in which such officer shall be considered to be in possession of a residence.

Salisbury Rules and Fundamental Rule 45

(ii) Where any question is raised under sub-clause (i),

(b) Where any question is raised as to which officer has the prior title to occupy a particular house, or if no officer wishes to occupy a house, as to which officer shall be required to pay for it, the question shall be decided by the Collector and the State Engineer. The

(d) In the City of Madras, houses will be allotted to applicants in consideration of the general public convenience and policy of application by the Secretary to Government, Public Works Department, and the Chief Secretary acting together.

(c) It will be the duty of the Executive Engineer to report every case of vacancy as soon as it is known that it is likely to arise and to take prompt steps to ensure that no house is allowed to remain vacant for a day longer than is unavoidable.

3. *Exchange of residential buildings by officers of the same station.*—Any two officers at a station may exchange the buildings allotted to them with each other as a purely private arrangement, but each officer will continue to be responsible for the rent of the building assigned to him.

3. *Sub-letting of residences.*—The sub-letting of an official residence may be permitted only under the following conditions:—

- (i) The previous sanction of Government should be obtained for sub-letting;
- (ii) the officer will still remain personally responsible for the rent and for any damage caused to the building beyond fair wear and tear;
- (iii) Government will not recognise the sub-tenancy;
- (iv) the rent to be charged by the officer to his tenant should not, except with the sanction of the Local Government in special circumstances, exceed the rent paid by the officer to Government;
- (v) sub-tenancy should continue only for so long as the officer who makes the arrangement holds the appointment for which the official residence is provided.

4. *Officer on leave.*—An officer who goes on leave, other than leave on average pay not exceeding four months, should be held to have ceased to be in occupation of the building from the date of commencement of such leave, unless for any reason the Local Government decides otherwise.

5. *Remuneration.*—The use of official residences on leave is average pay on an average five months' permission to occupy Government quarters during leave may be granted by the local administrative head of the department.

6. (a) An incumbent, whether permanent or temporary, of an appointment, for whose benefit a house has been constructed or purchased or leased by Government under the conditions specified in paragraphs 229-A and B of the Malaya Public Works Department Code, will be held responsible for the prescribed rent during the term of his appointment. In the following cases, however, no rent will be recovered provided that the head of the department furnishes a certificate to the officer responsible for the recovery of rents that the conditions laid down are satisfied:—

- (i) when an officer is holding, as a temporary measure under Fundamental Rule 45, an appointment to which a Government residence is attached, in addition to his substantive appointment and does not actually occupy the house;
- (ii) when an officer is officiating in an appointment for a period not exceeding two months and does not wish to occupy the house;
- (iii) when an officer is officiating in an appointment for a period not exceeding two months and the circumstances are such as to preclude him from occupying the house.

(b) Exceptions to the rule in the first sentence of (a) above may be sanctioned, with the previous approval of Government, when a building is rendered unsuitable by reason of extensive repairs or for any other cause and is so certified by the Executive Engineer. The latter should forward his certificate to the Superintending Engineer who will report to Government whether partial or total remission of rent should be allowed and for what period.

When only a portion of a Government residence becomes unsuitable, the occupant will be allowed the benefit of a remission of rent, only if the standard rent of the building, including the proportionate rent of the portion rendered unsuitable, falls below 10 per cent of the occupant's emoluments.

Inconvenience caused by petty or ordinary annual repairs is insufficient to warrant a remission of rent.

Notes 1.—An officer who is actually discharging the current or routine duties of an appointment to which an official residence is attached is not bound to occupy it and should not be considered as the incumbent of the appointment for purposes of recovery of rent.

Notes 2.—A Government servant provided with this quarter may opt to occupy them free of cost when he proceeds on leave for a period not exceeding four months, provided no alternative is reported to him. If the leave is extended beyond the four months' limit, the officer must occupy the quarters at his own cost.

Notes 3.—A permanent Government servant, during absence on leave or on duty elsewhere, is provided by the Superintending Engineer in place of his own rent, free of cost, but he must not claim his rent in the residence, when he is in the residence, provided he is not actually discharging the duties of the appointment.

- (i) The temporary Government servant who occupies the residence and is exempted from the payment of rent for it; and
- (ii) servants whose rent is paid to them by the Government during the absence of the permanent incumbent.

Notes 4.—The occupant of the Government quarters should be prepared to have his share in all liabilities incurred by Government under the statutory rules. See Fundamental Rule 45.

Fundamental Rule 45-A I and II.

45-A. I. This rule applies, with effect from the 1st April 1924, to members of the Services and to Government servants holding the posts included in the schedule to this rule and to Government servants who hold in a substantive capacity posts borne on the cadre of the services included therein.

II. For the purpose of the assessment of rent, the capital cost of a residence owned by Government shall include the cost or value of sanitary, water-supply and electric installations and fittings, but exclude the cost or value of the site (including expenditure on its preparation); and shall be either—

- (a) the cost of acquiring or constructing the residence and any capital expenditure incurred after acquisition or construction; or, when this is not known,
- (b) the present value of the residence.

Notes.—The cost of construction or special repairs shall not be added to the capital cost of present value, unless such expenditure is necessary and is necessitated by a direct replacement of the existing type of work by work of a more expensive character.

Provided that—

(i) a Local Government may make rules providing the manner in which the present value of residences shall be determined;

(ii) a Local Government may make rules determining what expenditure is to be regarded, for the purpose of sub-clause (a) above, as expenditure upon the preparation of a site;

(iii) a Local Government may, for reasons which should be recorded, authorize a valuation of all residences of a specified class or classes within a specified area to be conducted under the rules referred to in proviso (i) above, and may revise the capital cost of any or all such residences on the basis of such valuation;

(iv) the capital cost, however calculated, shall not take into consideration (1) any charges on account of establishment and tools and plant other than such as were actually charged direct to the work in cases in which the residence was constructed by Government, or (2) in other cases, the estimated amount of such charges;

(v) a Local Government may, for reasons which should be recorded, write off a specified portion of the capital cost of a residence—

(1) when a portion of the residence must be set aside, by the officer to whom the residence is allotted, for the reception of official and non-official visitors visiting him on business, or

(2) when it is satisfied that the capital cost, as determined under the above rules, would be greatly in excess of the proper value of the accommodation provided;

(vi) in assessing the cost or value of the sanitary, water-supply and electric installations and fittings, a Local Government may by rules determine what are to be regarded as fittings for this purpose.

Fundamental Rule 45-A III.

III. The standard rent of a residence shall be calculated as follows:—

(a) In the case of leased residences the standard rent shall be the sum paid to the lessor plus an addition determined under rules which a Local Government may make, for meeting, during the period of lease, such charges for both ordinary and special maintenance and repairs and for capital expenditure on additions or alterations as may be a charge on Government and for the interest on such capital expenditure, as also for municipal and other taxes payable by Government.

Subsidiary Rule under Fundamental Rule 45-A III (a).

Additions and alterations to leased residences.—In the event of any addition or alteration to the building being made with the consent of the owner subsequent to the signing of the lease at the request of the occupant and at Government expense, the following rules should govern the recovery of rent:—

(i) If the lessee agrees to take over the work done on the expiry of the lease and to pay to Government the capital cost of that work less an allowance for deterioration, which should be fixed before the work is done, the standard rent will be reduced so as to cover—

(a) six per cent or such other rate as may be prescribed from time to time as the standard of return on productive irrigation works on the capital cost of the additional work;

(b) the percentage or amount fixed for deterioration;

(c) the annual estimated charges for maintenance and repairs of the additional work (if repairs are carried by Government);

or
(ii) if the landlord refuses to accept any liability for the additional work, the standard rent will be added so as to cover during the period of the lease—

(a) the capital cost expended, including interest at 6 per cent or such other rate as may be prescribed from time to time as the standard of return on productive irrigation works; and

(b) the annual estimated charges for maintenance and repairs of the additional work.

Note.—The standard rent should be fixed when the work is completed.

In case (i) the capital cost will be held to be the total expenditure less half the amount which will be returned on account of deterioration.

In case (ii) interest will be calculated on half the amount of the outlay.

(3) In the case of residences owned by Government, the standard rent shall be calculated as the capital cost of the residence, and shall be either—

(i) a percentage of such capital cost equal to such rate of interest as may from time to time be fixed by the Secretary of State in Council plus an addition for

occupancy and other taxes payable by Government and for both ordinary and special maintenance and repairs, such addition being determined under rules which a Local Government may make, or

(b) six per cent per annum of such capital cost, whichever is less.

NOTE.—Prescriptions for the calculation of rent.—The Secretary of Eastern Council has prescribed

* These rates are as follows:—
 (a) Before 1st April 1928 — 4%
 (b) From 1st April 1928 to 31st July 1928 — 5%

He has also decided that the house interest rate on which trade for houses previously occupied have been calculated may remain unaltered unless in any cases they are higher than that now prescribed for houses occupied hitherto.

For the purpose of assessing rent, the Government of India have decided that the time of construction should be taken as the date on which the structure of the estimate for the construction of the residence are closed.

(Government of India, Finance Department, letter No. 2403 R.E., dated 10 September 1923.)

Subsidiary Rule under Fundamental Rule 45-A III (2).

Maintenance and repairs charges.—The allowance for maintenance and repairs to be included in calculating rent with interest to clause III (b) (i) of rule 45-A will be (i) 2 per cent per annum on the capital cost of the building and (ii) 4 per cent for repairs and depreciation in respect of sanitary, water-supply and electrical installations; municipal taxes, if payable, will be added separately.

(c) In both cases standard rent shall be expressed as standard for a calendar month and shall be equal to one-twelfth of the annual rent as calculated above, subject to the proviso that, in special localities or in respect of special classes of residence, a Local Government may fix a standard rent to cover a period greater than one month but not greater than one year. Where a Local Government takes notice under this proviso standard rent so fixed shall not be a larger proportion of the annual rent than the proportion which the period of occupation so prescribed under clause I above bears to one year.

NOTE 1.—For the purpose of sub-clause (c) and (d) above, the additions for both ordinary and special maintenance and repairs shall not include anything for the replacement and repair and plant charges, except to the extent allowed under clause (a) in clause II.

No. 123.—The following resolution of the Government of India is published:—

HOME DEPARTMENT.

JUDICIAL.

India, the 25th June 1918.

No. F-362/17.—The question of raising the age of consent as provided by section 375 of the Indian Penal Code has been agitating the public mind and requiring the attention of the Indian Legislature for some time. In 1912 Sir Basil Singh Ghose introduced a Bill in the Legislative Assembly with the object of raising the age from 12 to 14 years both within and outside the marital relationship. The Bill was considered for the purpose of raising the age, but the Legislative Assembly refused to accept the Bill in a Select Committee. In 1914 Sir Basil Singh Ghose introduced in the Legislative Assembly an amended Bill which was referred to a Select Committee. The Bill as amended by the Committee was circulated for the purpose of eliciting opinions, and it was recommended by the Committee. It was, however, rejected by the Assembly. Then the Government of India themselves introduced a Bill on the lines suggested by the Select Committee. It raised the age of consent from 12 to 14 years outside and to 14 within the marital relationship, and provided for separate punishment for sexual intercourse by a man with his own wife when she was below thirteen but not under twelve years of age. This Bill became law as

Act XXIX of 1918. Sir Basil Singh Ghose proposed further legislation in March 1917 with the object of raising the age of consent from 14 to 16 outside the marital relationship, and of protecting married girls between 12 and 14 years of age. This Bill has been introduced for the purpose of raising the age. In the course of the discussion on the Bill a promise was made on behalf of the Government of India to appoint a Committee to investigate the whole matter, and it appeared to them that the appointment of such a Committee would stimulate and concentrate public opinion with a view to formulating lines of further possible reforms.

Accordingly the Government-General in Council has decided to appoint a Committee which will start work at an early date. The terms of reference will be as follows:—

(1) to examine the state of the law relating to the age of consent as contained in sections 375 and 376 of the Indian Penal Code, specially with regard to its applicability to conditions in India;

(2) to inquire into the effect of the amendments made by the Indian Penal Code (Amendment) Act, 1921 (XXIX of 1921), and to report whether any further amendment of the law is necessary and if so what changes are necessary or desirable in relation to the law in India.

3. The Committee will be composed as follows:—

Chairman.

(1) Sir Mappan Vembanath Jetti, J.C., M.A., late Home Member of the Executive Council of the Government of the Central Provinces.

Members.

(2) Sir Balakrishna Karanth, J.C., late Judge of the Madras High Court.

(3) Mr. A. Ramaswami Mudaliar, lately a Member of the Madras Legislative Council.

(4) K. R. Ramesh Babu, M.A., late a District and Sessions Judge in the Bombay Presidency, and now Chief Judicial Officer of the Tanjore District.

(5) Mrs. M. O'Brien, B.A., M.A. (London), D.L.S., Superintendent, Victoria Government Hospital, Madras.

(6) Mrs. P. J. L. Nair.

The Secretary to the Committee will be appointed hereafter.

4. The Committee will visit such places as they may consider necessary, and will take evidence on the questions stated in the terms of reference. Persons who desire to be called as witnesses should apply in writing to the Secretary, care of Home Department, Government of India, Madras, giving their full names and addresses together with a brief statement of the points in regard to which they desire to give evidence. It will sit in session with the Committee to decide what evidence they will take.

DEPARTMENT OF AGRICULTURE

COTTON CROP OF 1928—INTERMEDIATE MONTHLY REPORT.

The second or summer plintage of cotton has commenced in Salem and in the South.

In Coimbatore and in the South the crop has been offered adversely by the absence of rain, especially in June and the crop is being pulled out to waste.

The yield from the "har" or second plintage is expected to be normal in Salem, below normal in Coimbatore and Trichinopoly and much reduced in the South.

THE GROUNDWATER CROP OF 1928—SUMMER AND EARLY CROP—CONJUNCTION REPORT.

The condition of the summer crop is generally fair. The crop was affected temporarily by drought especially in the districts of South Arcot and Chittoor. Harvest is in progress in Coimbatore. The yield is expected to be below normal by about 10 per cent in all the districts owing to insufficient rainfall and scanty supplies in wells during the growing period.

3. The season was entered for the sowing of early crops in Coimbatore and the area is about normal. In Salem, sowing was retarded for want of sufficient rain and the area sown is below normal. The crop is generally fair. But rain is needed urgently in Salem.

NOTIFICATIONS.

No. 7.—In virtue of the powers delegated under clause XI of Government Notification No. 494, dated 16th July 1926, published on page 1203 and 1204 of the *Port St. George Gazette*, dated 29th September 1926, Part I, as amended by Government Notification No. 101, dated 12th March 1928, and in accordance of Commissioner's Notification No. 1, dated 12th June 1927, the Commissioner of Revenue

herely prescribes the following rules for the issue, etc., of licenses and the issue 12 of the Madras Act of 1906, for the tapping of rubber-producing trees and for the drawing of toddy therefrom, to have effect in the following local areas from the 31st day of October 1919:—

(1) The villages in the Agency tracts specified in Schedule 1 annexed.

(2) The rest of the Presidency with the exception of the Nilgiri district and the Wynad, Malabar, Travancore and the Annapurani valleys of the Madras district.

(3) The Bangalore State.

5. Tree-tapping licenses shall be issued on the application:—

(a) of licensed toddy shop-keepers in areas in which the toddy shops are sold by auction on licensed property;

(b) of persons claiming the exclusive privilege of manufacture and supply of coconut toddy abroad;

(c) of persons on their own application in the South Kanara district, provided that the applicant for license is accompanied by an application for a permit for the transport of the toddy drawn to some particular shop and that the latter application is acknowledged or acknowledged to be correct by the shopkeeper to whom the toddy is to be taken;

(d) of tree-owners generally, and of every toddy tapper in the villages of the Agency tracts specified in Schedule 1, in the East Coastal district, in the portion of the West Coastal district now comprising the Narayana, Thannur, Kankar, Kharu and Yerragadda taluks of the old Kanna district and in the Kuppala and Rayachoti taluks of the Coimbatore district, for not more than five trees in the case of tree-owners and three trees in the case of toddy tappers for the drawing of toddy required for domestic consumption, but not for sale;

(e) of toddy shopkeepers or owners in the Mysore territory and in the Bangalore State desiring to obtain toddy from trees growing in British territory;

(f) of toddy shopkeepers in the Pudukkottai State desiring to obtain toddy from trees in British territory provided that the application is certified as correct by the British and Madras Inspectors of the Forests and;

(g) of any member of a hill tribe whether a tree-owner or not, residing on any of the villages of the Tirunelveli district specified in Schedule 1, for not more than five trees for each household for a domestic consumption, but not for sale.

In cases (1), (2), (3) and (4), the license may be issued in the name of the applicant himself or of his partner, and in cases (5), (6), (7) and (8) in the name of the applicant only.

6. Persons wishing to apply for the grant of tree-tapping licenses must first pay the fee (or the first instalment thereof, as the case may be) due on account of the trees which they desire to tap, into a Government treasury, which may be either the District Treasury or a Taluk Treasury. The said fee may also comprise a grant of village or estate payments on account of tree-tax and in grant payments districts. In the case of persons accustomed to tap trees in the forests of the taluk in which the shop is situated or in an authorized village, no fee is to be paid, and the license concerned shall be a domestic one. In the application in the event that they have obtained a license previously for temporary for a shop supplying also for some other member of the shop for which trees are to be worked, the shop license should be produced before village officials in cases where the applicant and trees are

produced in these offices. Pudukkottai system, when applying for license in British territory, must pay the fee drawn into a British treasury at the rates prevailing in British territory.

7. (1) Application for the grant of tree-tapping licenses may be made in the prescribed form in the Inspector, Revenue Department, in charge of the circle in which the trees are situated. Forms may be obtained from the Inspector of the District Treasury and from all Tahsildars and Deputy Tahsildars and will be supplied free of charge. Applications put in by shopkeepers and licensees must not be accepted; those put in by other persons must have a certificate of stamp of ownership. In any case, if the fee has been paid into a treasury, the application must contain a certificate of payment from the treasury officer; if payment has been made to a village head, the receipt must accompany the application. Mysore licensees and shopkeepers applying for trees in British territory should pay the fee into the Mysore District Treasury and should present before the British Tahsildar or Deputy Tahsildar concerned, along with the application in Form T.T. 1, the receipt with the District's certificate at the foot to the effect that the applicant is a person entitled to tap out a tree-tapping license in Mysore. Applications from Mysore licensees for licenses for the tapping of trees in villages in the British territory in which there are trees belonging to Government should invariably be got countersigned by the village headman of the villages in which the trees are situated in token of the signature of the owner concerning the ownership of the trees. The fee should be submitted at the higher rate if the rates are not the same on the two sides of the frontier.

(2) Applications for tree-tapping licenses in the South Kanara district should be accompanied by the owner or person in possession of the trees intended to be worked in token of his consent.

8. Toddy shopkeepers in areas adjoining the Mysore territory will also be allowed to tap trees in Mysore for the supply of toddy to their shops on payment of the whole of the fee-tax in one instalment into the British treasuries and subject to such regulations regarding permits, etc., as may be prescribed in this behalf. The rate of license to be paid in such cases will invariably be the higher rate in force, if the rate is not the same on the two sides of the frontier.

The British and Mysore Governments agree to themselves the right to impose, in addition to the tree-tax, a rate for the use of trees belonging to them, the rates when imposed being payable by British and Mysore licensees alike. The arrangements agreed to by the Madras and the Mysore Governments with regard to the issue of licenses for tapping trees in either territory on the application of persons or shopkeepers in the other do not prevent the operation of trees in any specified area in Mysore Territory or in Mysore with a view to effect such thereby or for other substantial reasons and the mere payment of tree-tax into a British or Mysore treasury does not entitle an applicant to tapping licenses for trees so worked.

9. Toddy shopkeepers in British territory adjoining the Bangalore State will be allowed to tap trees in the State on payment of tree-tax, the rate being the same as in the Kanara district. Similarly, those in the Bangalore State will be allowed to tap trees in the adjoining British territory. Toddy shopkeepers in British territory adjoining the Pudukkottai State will be allowed to tap trees in that State on payment of tree-tax in that State at the higher of the rates prevailing on both sides of the frontier.

10. Persons applying for the issue of license will be responsible to Government for all sums payable on tree-tax on account of the trees licensed to be tapped.

11. (1) Unless there are special reasons for refusing to work the trees, the Inspector on receipt of an application will at once take steps for the marking of the trees by an officer of rank not lower

than a Sub-Taxpayer and for the lease of the license. The taxpayer may also at his discretion refuse to comply with an application otherwise made in part, if he considers that the taxes applied for are in excess of the legitimate demand of the shopkeepers. For taxes shall point out to the meeting officers, when required by the latter to do so, the taxes applied for by them. Should they fail to do so after reasonable notice, the first paid by them shall be liable to be forfeited at the Collector's discretion.

(7) In the East Godavari District, in the Nannuru, Kinnaravolu, Tatala, Pileru and Vengaluru talukas of the West Godavari district, in the Rajulu and Rajulu talukas of the Godavari district and in the villages of the Agency tracts specified in Schedule I, taxes collected for the drawing of licensed toddy and those for the drawing of sweet toddy shall, as far as possible, be in separate tapes or sheets.

1. Collections here, from time to time, pursuant to the minimum number of trees to be entered in an

original application. They may also direct that the trees situated in one village only shall be included in an application.

18. Tolls shall not be drawn from any toddy tree, nor shall any pot be attached to any toddy tree until the tree has been marked by the proper officer.

There were two calm hours during the month. The windrose corresponding to the above numbers is represented by a NW wind, blowing with a uniform daily velocity of 112.9 miles.

Weather during the month was drier and hotter than usual at Madras and on the east coast generally. The monsoon appeared at Madras on the 1st and the easterlies of rainfall into the Deccan effected a material reduction in temperature in the interior. The east coast, however, continued to suffer from high temperatures and as usual with a pressure distribution characteristic of a strong monsoon, the sea breeze either did not set in at all at Madras or lasted only for a short time on each day. The thermometer rose above 100° at Madras on twenty days during the month, the highest reading being 105.4° on the 6th. Very little rain was recorded. Thunderstorms occurred on three days, distant thunder on five other days and distant lightning on five other days.

The Standard Barometer and Thermometer are read at 8 a.m., 11 a.m., 4 p.m. and 8 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The mirror of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain gauge is two feet from the ground. The wind, sea and general weather registered are for the current date day—from midnight to midnight.

The total quantity of rain collected above January 1st is 0.18 inches, the average due for the same period being 0.50 inches.
